

No matter who you are and where you call home, Neighbours Day Aotearoa can help you connect with your community. Whether you are an individual, a group or an organisation. If your neighbours are houses, flats, business or something else entirely, you can host an event tailored specifically to your neighbourhood. This year we've got four options to help create your very own Neighbours Day event:

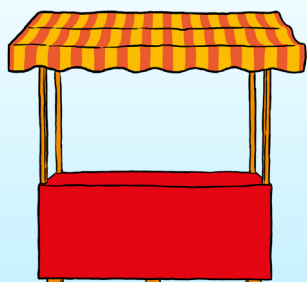

Barbecues on the Berm

This is a perfect event for people living in the suburbs. It's as simple as firing up a kerbside barbeque and inviting your neighbours around for some kai. It can be as low key or as high voltage as you want!

Fiestas between the Floors

This is a perfect opportunity to meet your neighbours if home is an apartment building or if you work in an office block. A chance have some fun, share some food and get connected!

Pop-Ups in Public Places

This one is for the real go-getters! Create an event in your local public park, square or community organisation carpark and celebrate the uniqueness of your area.

Wild Card

For those of you who want the freedom to organise something a little bit different, or a little bit specific. Something that celebrates the uniqueness of your neighbourhood. A community clean up? a flash mob? It's up to you, go wild!

Each Neighbours Day event comes with: A tool-kit of resources and templates, the opportunity to win an event prize pack, and an expert mentor you can contact if you need extra support.
